

Our ref SE

1 August 2013

To whom it may concern,

INTRODUCTION REFERENCE

Alpha Homes agreed to run a trial of the savastat load compensation boiler controls on the 4 x Hamworthy boilers at our Bedford court premises on the Wirral.

Enersol Flomar guaranteed that they would make a minimum saving of 10% over the full site, or there would be no charge to the scheme.

I am more than happy to report that this figure has been reached, in fact the saving appears greater than originally expected.

In addition to the savings, Enersol Flomar Technical Management team have assisted us by identifying on going boiler issues with in our plant room, which will allow us to keep maintaining the level of comfort we would be expected to provide our residents.

Enersol Flomar carried out the trial in a very professional timely manner, with clear explanation during the process.

To this end we have requested that Enersol Flomar survey another 9 Alpha sites.

Yours faithfully

Simon Edge
Operations Director
Alpha Homes
