Dear Sirs

E.ON engaged Enersol Flomar to provide boiler optimisation controls to one of our clients, as part of a larger energy savings programme. I can confirm that they delivered their promised savings. We cannot reveal our clients name or the quantity of the savings for client confidentiality reasons. We were happy with their approach to this project and we continue to work with Enersol Flomar as one of our energy saving partners.

Yours sincerely

A handwritten signature in blue ink, appearing to read 'Rupert Butt', is written over a light blue horizontal line.
